

NAVEEN KUMAR

FRONT-END DEVELOPER

Chennai, Tamil Nadu, India | naveenkumar592.t@gmail.com | +91 9952201603

SUMMARY

Detail-oriented UI Developer with experience in creating responsive, pixel-perfect user interfaces and performance-optimized frontends. Proficient in modern web technologies including React, Next.js, and Tailwind CSS, with additional knowledge of Java and SQL for building full-stack applications. Proven ability to guide teams, maintain clean codebases, and collaborate across departments to deliver quality web applications.

TECHNICAL SKILLS

Frontend Development : HTML, CSS, JavaScript, jQuery, Bootstrap, Tailwind CSS, Angular, React.js, Next.js

Backend and Database : Java, SQL

UI Libraries and Toolkits : Telerik, Metronic, Material Tailwind, Material UI

PROFESSIONAL EXPERIENCE

Technical Analyst, Stradegi Solutions

Mar 2024 to Present

- Led UI development for nFlows, a no-code solution platform.
- Enhanced and revamped UI modules, implemented clean code practices, and resolved production issues.
- Customized Telerik UI components to meet complex client requirements.
- Mentored team members in frontend development and performance optimization.
- Collaborated with multiple teams across projects, contributing to UI across all in-house products.
- Experienced in debugging backend issues and resolving problems related to data manipulation and logic in Java, ensuring smoother integration between frontend and backend systems.
- Developed and maintained an internal application to streamline team workflows by tracking enhancements, defects, daily check-ins, and overall progress, while also documenting RD findings, overwritten files, included plugins, involved developers, release details, and issue tracking for complete project transparency.

Frontend Developer, Alphabet Techs

Jul 2022 to Mar 2024

- Designed and developed responsive websites and dashboards using WordPress, Bootstrap, and Metronic (UI toolkit).
- Built and customized plugins to meet specific client use cases in e-commerce and business domains.
- Managed client communications, handled project requirements, and maintained ticket resolution systems.
- Created backend-integrated dashboards using PHP CURL.
- Led the development of a core e-commerce platform inspired by Shopify, from UI to functional integration.
- Developed an admin dashboard module for a core project using Angular v14, enhancing usability and scalability of the platform.

EDUCATION

Bachelor of Engineering-Computer Science
at Loyola Institute of Technology

CGPA - 7.25
Jul -2018 to Mar -2022
